

2017—CAMELOT Annual HORSE TRIALS SERIES HIGH POINT RULES

For the Series High Point (saddle of choice), a competitor earns points for:

1. Each trial entered (schooling and/or recognized). Completion is not required but full fees must have been paid.

10 points will be awarded each horse/rider pair that enters and pays full fees.

2. Difficulty of division entered for Beginner Novice, Novice, Training and Preliminary. **Note: Preliminary Division offered at June Trials only – see Rule 4.** Completion is not required but full fees must have been paid. For example, Intro receives zero difficulty points. Beginner Novice will be awarded difficulty points and Novice will be awarded more difficulty points than Beginner Novice. This increase in difficulty points continues up the levels.

Zero points will be awarded each horse/rider pair that enters and pays full fees for Intro.

5 points will be awarded each horse/rider pair that enters and pays full fees for Beginner Novice.

10 points will be awarded each horse/rider pair that enters and pays full fees for Novice.

15 points will be awarded each horse/rider pair that enters and pays full fees for Training.

20 points will be awarded each horse/rider pair that enters and pays full fees for Preliminary.

3. Additional points are awarded for placing first through sixth, dependent upon the number of riders in the division. For example, if a rider places first in a division that only has one entry they will not be awarded as many points as a rider that places first in a division with thirteen entries.

If six or more riders in class/division, 1st through 6th will respectively be awarded 70, 50, 40, 30, 20, 10 points.

If five riders in class/division, 1st through 5th will respectively be awarded 60, 40, 30, 20, 10 points.

If four riders in class/division, 1st through 4th will respectively be awarded 50, 30, 20, 10 points.

If three riders in class/division, 1st through 3rd will respectively be awarded 40, 20, 10 points.

If two riders in class/division, 1st through 2nd will respectively be awarded 30, 10 points.

If one rider in class/division, 1st will be awarded 10 points.

4. Points are accumulated by horse and rider combination. The horse and rider combination may compete at different levels through the Series but the horse may only enter one level per trial. For example, a horse/rider combination that competed at Beginner Novice during the first Horse Trials could move up to Novice at the second Trials and theoretically could move up again to Training at the third Trials. In this case the horse/rider combination competed at three different levels and all points would accumulate to one total for the Series.

5. The saddle of choice will be awarded to the horse/rider combination that accumulates the most points. Ties will be broken by closest to optimum time in cross country.

6. Saddle winner will be announced at the annual Ride & Dine Awards Ceremony. High Point winner need not be present to accept award. High point winner will be given contact information to arrange their special order with the saddle manufacturer.
